3 Days

Only \$495!

You can't create a photograph without light and you almost cannot create a great photograph without great lighting! Struggling with studio portrait lighting? Want to take your studio portraiture to the next level? This 3 day "hands on" workshop will extensively explore the ins and out's of studio portrait photography. Each light will be individually analyzed so you will have a clear understanding of its contribution to the final image. Lighting equipment from simple to elegant will be discussed in such an easy to understand way that you will make educated decisions as you add to your equipment repertoire. The classic portrait lighting will be discussed and students will have an opportunity to watch Don work his magic as well as create their own portrait images.

After spending 3 days with Don, you'll go back to your own studio confident that "You Can Do It!"
